General Information

Continuing Medical Education (CME)

Accreditation and Credit Designation

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education through the joint sponsorship of the University of Chicago Pritzker School of Medicine and The American Society for Clinical Investigation and the Association of American Physicians. The University of Chicago Pritzker School of Medicine is accredited by the ACCME to provide continuing medical education for physicians. The University of Chicago Pritzker School of Medicine designates this live activity for a maximum of *6.75 AMA PRA Category 1 Credits™*. Physicians should claim only credit commensurate with the extent of their participation in the activity.

Learning Objectives

The theme of the 2011 ASCI/AAP Joint Meeting is the Scientific Basis of Disease and Therapy. The program will feature lectures by accomplished researchers who will discuss state-of-the-art advances in their respective fields. The program is designed to foster in-depth discussions and close interactions among the meeting participants. At the completion of this meeting, participants will be able to: (1) describe important recent advances in the scientific basis of disease and therapy, and (2) describe the roles that improved understanding of these advances can play in the potential treatment of human disease.

Overall Meeting Evaluation

The ASCI/AAP Joint Meeting Planning Committee needs your input to enhance future meetings. An online meeting evaluation survey will be emailed to you shortly after the Joint Meeting. Your participation in this survey is greatly appreciated.

Poster Session Schedule

Friday, April 15

APSA Annual Meeting Travel Award Recipients

The American Physician Scientists Association (APSA) is dedicated to addressing the needs of future physician-scientists with a focus on training and career development. APSA currently focuses its priorities in the four pillars of mentoring, networking, outreach and resources. APSA, founded in 2004, held its first annual meeting in 2005 as a satellite meeting to the ASCI/AAP Joint Meeting. Since then, APSA, a trainee-based organization and a fully volunteer organization, has continued to increase and integrate the contributions of physician-scientist trainees to the Joint Meeting.
